Advice to Mothers
Have you taken baby's photograph
taken?
It's an art to take baby's photo-
graph as it should be taken. To catch
the beautiful little smile, the pretty little
dimple, such photographs become prized
souvenirs of babyhood's days in
years to come. We have had years of
experience in photographing children.
They always look their best when we
take them. No troublesome posing.

Report Accepted, Action Delayed.
On motion of Gen. William A. Allen
it was voted to accept the report and
act on it at the next meeting.

Before introducing the speaker,
President Haviland said that he re-
gretted the small number attending the
meeting in view of the importance of
the subject, but he was glad to see
the ladies present, for the handwriting
on the wall indicates that the time is
coming when they will assist in gov-
ernment and we shall have the pleas-
ure of consulting them to the hilt.

Commission Government of Cities.
Following President Haviland's brief
introduction, Mr. Woodruff spoke up-

sands of public spirited citizens, 155

form of commission government. It has
its inception in the plan adopted

act as a spur to the citizens. Alto-
